Maybe even better than free.

Any file in any format can be uploaded and downloaded for free. filehosting provides an easy possibility for you to send large files to your friends. File is freeto use with no gotchas and no hidden fees. You can give this download link to your friends by mail or instant messenger. We have no file size limit.Alternatively you can choose to share your download links on blogs, forums and social networking sites. Files transferred the old-fashioned way tend to pile upand be forgotten about, eventually costing you money in data storage fees. You don't need any special software installed to be able to download your files. Noaccount or credit card is required to get started. Just upload the file you want to share with your friends and we send you a download link to your file.Unfortunately, we can't make that part free. Our service is completely free for everyone. Simply upload your file and share the link. The cost of that datatransfer is covered by your internet service or the data plan on your phone. There are no restrictions on the number of times a file can be downloaded. It is alsoallowed to link to the download page from websites and communities. Using file, you can circumvent those limits without paying to upgrade your team chatservice. You can upload any type of file (movies, music, documents, images, zip files and more). Keep your files private, or send your download links only tofriends or family. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. If only we could, we surely would! On theother hand, using file can actually save you money. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chatapps have limits to the size of files that can be transferred within their apps. So try our free and simple filehosting service now. Files can be downloaded fromany computer from our high speed servers. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is beingtransferred between your computer or phone and our servers, then from our servers to your friends device. You decide who you want to share your files with.This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts.
