Book Descriptions:

Creative playthings swing set assembly manual

The gym also has 3 safety hand grips for added comfort. Each wooden piece is cut to length, drilled and comes ready to be assembled. If you have any questions about your purchase or any other product for sale, our customer service representatives are available to help. Whether you just want to buy a Creative Playthings Charlotte Swing Set or shop for your entire home, Wayfair has a zillion things home. To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzes reviews to verify trustworthiness. See All Buying Options Add to Wish List Disabling it will result in some disabled or missing features. You can still see all customer reviews for the product. I did have to buy some screws for the wall slats the ones included would not set as they just were not long enough. All said and done. the kids are so happy with this. Almost the same steps apply to finding the correct hardware as well. Very time consuming and confusing. The bolts come together in 12 bags and you have to measure all and sort otherwise it's a nightmare. I am very handy and do a ton of wood work and I had to read and reread each instruction step. Our monkey bars set was missing an entire bar. Luckily I was able to take one from the monkey bar ladder too step is really not needed for our kids but the step rail was longer so I had to use a hacksaw to cut it down to size for the monkey bars. Now I have holes to fill in on the stair boards but I am doing that with wood filler. I had to make a trip to Lowe's to get what I needed. I went back through the instructions to check I didn't use the wrong size anywhere as well but no luck. we were just shorted. Lastly, the set is only three weeks old with our kids only playing on it a few times due to excessive rain. <http://minuspk.ru/minuspk.ru/userfiles/ford-ppap-manual-pdf.xml>

- 1.0.

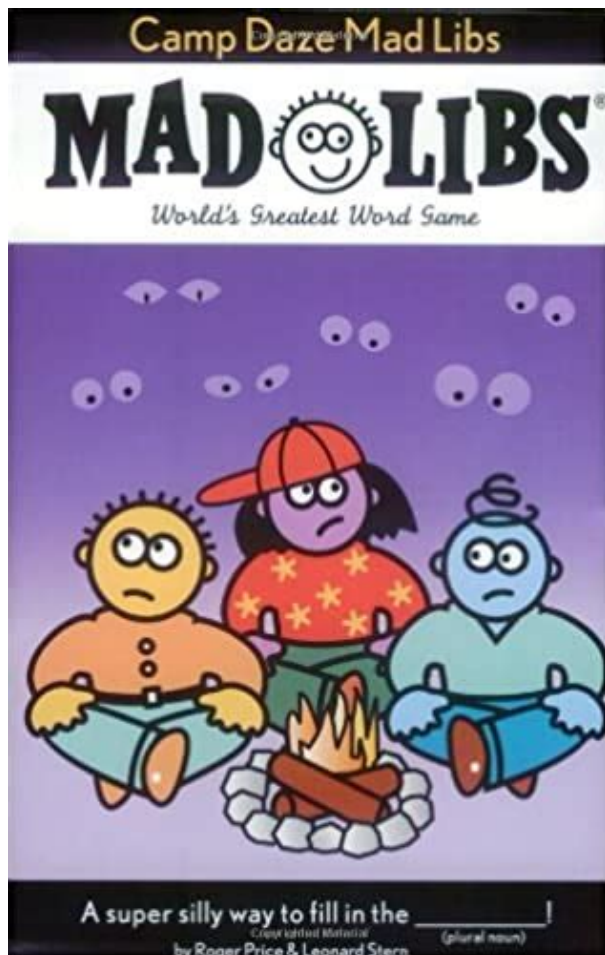

I come to find that 8 of the screws holding the rock wall boards on have sheered off totally. This left an entire board on the ground. I replaced with my own galvanized deck screws as it would seem the screws that came with the set are horrible quality. The highlight is the slide as it is great quality. One of the thicker and better made slides I have seen on these type of sets. By far the slide will outlast the rest of the play set. My kids love it but it was definitely not the quality nor worth the cost when it's missing pieces. Please try again later. Please try again later. Please try again later. Charles Stroup 4.0 out of 5 stars My son and I spent portions of three days assembling it. The directions were pretty good, but the number of pieces was a bit overwhelming. Identifying pieces was done by measuring, no labels. Overall the kids love it, it seems pretty sturdy for small children, under 100 lbs. It was definitely easier than building a play set from scratch which I have done several times. Please try again later. Please try again later. mother 4.0 out of 5 stars There are a zillion pieces and only one set of screws was wrong which wasn't too bad. Not for the faint hearted. Quality seems good. Only needed to redrill a few holes. Hopefully it will last thru a childhood or two. Please try again later. Please try again later. laura 5.0 out of 5 stars Very nice playset! Please try again later. Please try again later. Amazon Customer 4.0 out of 5 stars Hope they weren't necessary. Beautiful though. Also, prepare to improvise. Please try again later. Please try again later. Gary William Hansel Jr 2.0 out of 5 stars For starters nothing is marked, so every piece had to be measured and some pieces are the same size with different hole patterns. Also half of the hardware was missing and needed to be purchased separately. Please try again later. Please try again later. Greg Russell 5. <http://enggcharts.org/userfiles/ford-probe-gt-service-manual.xml>

0 out of 5 stars However, it would be massively better if they simply marked each piece and put the hardware in separate bags. We had to measure everything including screws and bolts prior to assembly. You'll also want a socket driver. Plan for a solid 1.5 days with 2 people. Please try again

later. Please try again later. Tammy Serum 5.0 out of 5 stars It is very sturdy! Please try again later. Please try again later. Kindle Customer 5.0 out of 5 stars A bit of a challenge to put it together. It would help if the lumber pieces were marked and referenced in the instructions. Some of the hardware pieces were short but I was able to improvise. Please try again later. Please try again later. He has played on it for over an hour everyday. Very sturdy, real wood! Please try again later. Please try again later. International customers may also incur some extra charges and you will need to send us your shipping information and zip code to get more information about shipping. This warranty applies only to the original purchaser and is subject to normal use. Playtime warrants that all products will be free from workmanship defects for a period of one year from the date of original purchase. However, the damaged parts must be returned for inspection and will be returned free of charge. No returned merchandise will be accepted without prior written approval from Playtime Swing Sets along with a dated proof of purchase. Playtime Swing Sets are designed for residential installation only and will not be under warranty if used for commercial applications. Warranties do not cover any modifications done to the play set or seasonal defects that are natural characteristics of all outdoor wooden play equipment. Consequential damages such as vandalism, acts of God, improper installation, or cosmetic defects that do not affect the structural integrity of the unit are not covered under the limited warranty. They are made to fit a wide range of budgets and backyard sizes. You can be assured that when you have a Creative Playthings swing set in your yard that you will not only have some of the best craftsmanship and superior materials, but your kids will have a playset that will help build their imagination and provide hours of fun.
